

# Getting started with the EDS App

## Getting the EDS App

If you haven't already downloaded the EDS app, you can scan the code here on your mobile device, or find it in the iOS App Store or Google Play Store by searching "YourEvent by Zerista". Check your email for your personalized login information, or log in with the email you used to register for EDS and the password "leadershipsummit". You can also get help at Registration.

Scan to Download

Choose EDS Summit 2019

App Icon

When you open the app for the first time, you will be asked to select your conference from a list of events. Choose **EDS Summit 2019**, and you will then be taken into the app, and guided through setting up your profile.

## Getting Started

Across the bottom of the screen is the main navigation:

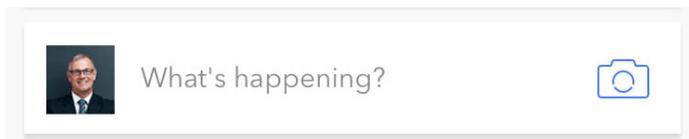

**Home:** An overview of Events, Sponsors and other useful info.

**My Event:** This is where you'll find events, messages, notes and appointments that you add to your schedule elsewhere in the app.

**EDS Schedule:** Tapping an event will bring you to a screen with more information. Tapping the ... icon to the right of the event will bring up a menu allowing you to add it to your schedule or add a note.

**Who's Here & Attendees:** A listing of all companies and Individuals at EDS and their location. Tap for details, or tap the ... icon to send a message, schedule a meeting, add to your favorites or add a note.

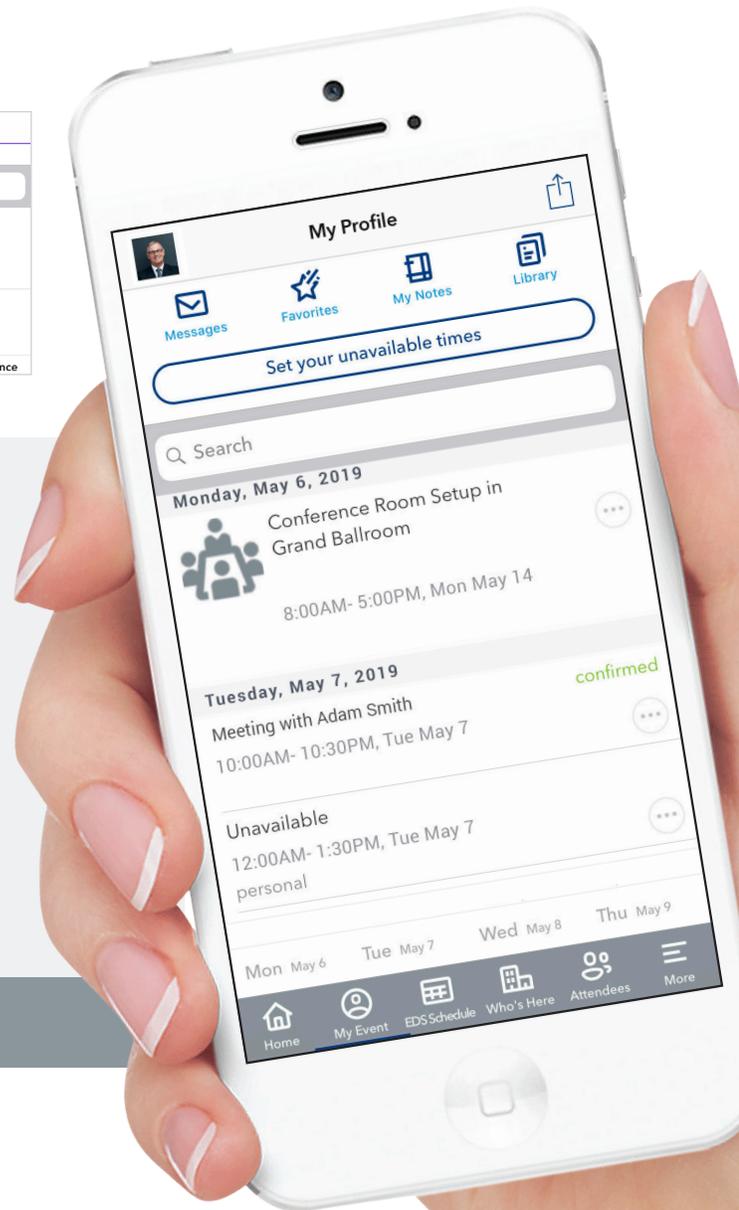

**More:** An extended menu where you'll find maps, restaurants, sponsors, photos, app settings and more.

## How to post during EDS: share your experience!

To share a message or image with everyone using the app, scroll to the bottom of the home screen, and tap inside the **What's Happening?** box. Then tap the screen to start typing a message, or tap *Add Photo* to add an image. There are also options to post to your Facebook, Twitter or LinkedIn accounts. All of your posts will be visible in the **Photos** section, located under the **More** menu.

Be sure to check here throughout EDS to see what's going on and what others are sharing.

## Customizing Your App

Throughout the app, you can tap on events, people or companies to find more info. Tapping the corresponding ... icon will bring up a menu that provides various options to add the information to your **My Event** section. You can add notes, request meetings, send messages and more.
